

AYUSH RAJ

Software Engineer — Full Stack Developer

+91 9939565466 — mail.ayushraj247@gmail.com — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

SKILLS

- **Languages:** JavaScript, Python, C/C++, HTML, CSS, SQL
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Tailwind CSS, Recharts, JWT
- **Tools & Platforms:** Git, MongoDB, MySQL, REST APIs, Postman
- **Core Competencies:** Full Stack Development, API Integration, Data Visualization
- **Soft Skills:** Team Leadership, Problem Solving, Product Thinking, Communication

EDUCATION

- **KIET Group of Institutions** Ghaziabad, Uttar Pradesh
• *Bachelor of Technology - Electronics and Communication Engineering; GPA: 8.29/10* Aug 2024 – Present

EXPERIENCE

- **Flinque – Brand & Influencer Marketplace** [\[website\]](#) [\[platform\]](#) Mar 2026 – Jun 2026
• *Full Stack Developer Intern | React.js, Node.js, Express.js, MongoDB, Tailwind CSS*
 - **Influencer Analysis Tools:** Built and deployed the frontend and backend for 15+ tools that calculate influencer data such as engagement rate, lookalike creator detection, niche matching, and comparison tools.
 - **Dashboard:** Helped build role-based dashboards for Creators, Brands, and Admins.
 - **Flinque Platform:** Worked on the main company platform by building various UI components and adding new features.
- **Lifelinkr – IVF Clinic Management Software** [\[website\]](#) Jun 2026 – July 2026
• *Software Engineering Intern | React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Git*
 - **Patient Management Dashboard:** Built a pixel-perfect React and Tailwind CSS dashboard with a patient sidebar, treatment cycle cards, and stimulation charts using Recharts.
 - **CRM:** Built a customer relationship module to manage client details and interactions.
 - **API Development & Integration:** Built and connected 30+ REST APIs to the main platform.
- **CipherVest Capital – Finance and Crypto Intelligence Platform** [\[website\]](#) Jan 2026 – Present
• *Founder & CTO*
 - **Platform Development and Deployment:** Leading the full-stack development of a finance and crypto intelligence platform with real-time market data, portfolio tracking, and analytics dashboards.
 - **Architecture:** Designed and built the core system architecture including backend APIs, database schema, and frontend interface using the MERN stack.
 - **Product Strategy:** Driving product decisions, feature planning, and technical roadmap as the founding technical lead.

PROJECTS

- **Real-Time Collaborative Code Editor (React.js, Node.js, Socket.io, Express.js, Tailwind CSS):** Engineered a real-time collaborative code editor enabling multiple users to write and sync code simultaneously in shared rooms. Implemented live cursor tracking, syntax highlighting, and instant updates using WebSockets and React.js.
- **Real Time Chat App (React.js, WebSocket, Tailwind CSS, JavaScript, Node.js):** Developed a real time chat application using React.js, WebSocket, Node.js, and Tailwind CSS with instant messaging, live typing indicators, and a responsive, modern user interface.
- **Banking System Backend (Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs):** Developed a secure banking backend featuring JWT-based authentication, account management, transaction processing, blacklist token logout, email services, and role-based middleware using Node.js, Express.js, MongoDB, and Mongoose. Designed scalable RESTful APIs with a modular MVC architecture.
- **Satellite Telemetry Monitoring System (React.js, Node.js, Express.js, MongoDB, JWT):** Built a real-time dashboard to track and show sensor data. Used JWT-secured REST APIs and a strong backend to keep the data flowing without breaks.
- **CipherVest Capital (React.js, Node.js, Express.js, MongoDB):** Developed a full stack fintech web application using React.js, Node.js, Express.js, and MongoDB with secure JWT authentication, role based access control, CRUD operations, RESTful APIs, and a responsive user interface.

HONORS AND ACHIEVEMENTS

- **Second Runner-Up:** KIET Code Hackathon – May 2026
- **Top 8 – IdeateX:** Led a team to Top 8 position at IdeateX – May 2026
- **DSA:** Solved 200+ DSA problems in C++ on platform like Leetcode and GFG
